ANDROID™ NETRUNNER™
THE CARD GAME

Flip Cards

The Jinteki Biotech card (⚙ 12) in The Valley data pack is double-faced. The three copies of Jinteki Biotech each have a different version of the card on the back side. The Corp player can build his deck around any one of the copies of Jinteki Biotech–all 3 have the same influence and minimum deck size restrictions–and then use the ability on the front side of the card to swap to a different version of the card from his collection before taking his first turn. There is no influence nor minimum deck size listed on the back sides of the Jinteki Biotech ID, as these values are not used during gameplay.

The back side of a double-faced identity is hidden knowledge, and the Runner cannot look at the back of the card.

By spending ⓘ ⓘ ⓘ, the Corp can flip the front of the ID to its back side. This triggers the ability on the back side of the identity. This is a once-per-game ability, as the Corp cannot choose to flip the ID back to its front.

When swapping IDs, the player can swap back to the original card (in case he is worried that his opponent knows which card he started with).

Visit the eMuse Arts and Entertainment Hall to see next season's hottest media today! You can even stop by the *Blast from the Past* booth to check out 2D entertainment of yesteryear!
UNIVERSE OF TOMORROW
Here we have Worlds Plaza! There is a magnificent holosculpture in the center, by renowned Martian artist Zhang Yi Flower! It depicts the three inhabited worlds in your solar system–that you know of! Haha. That's my little joke.
The Cybernetics Building is where Haas-Bioroid and our other sponsors are showcasing the future of human enhancement. Check out the Runway for some of the hot new chrome fashions, or see the future of organ-replacement prosthetics at Rossum Hall.
This is the amazing Genetics Pavilion, brought to you by the Jinteki Corporation! *Jinteki: When you need the human touch.* The genengineers of tomorrow are building a whole new you right now in the Valley and around the world. Why not stop by the Ancestry Analyzer and see where your genome was two, five, or twenty generations ago? You might be a candidate for complimentary gene therapy!
